Background:

State agencies, including the Department of Health (DOH), conduct hospital surveys and audits in order to enforce standards and rules required for the safe care and treatment of patients. An audit entails an examination of records or financial accounts to evaluate accuracy and monitor compliance with statutory or regulatory requirements. A survey involves an inspection, examination, or site visit conducted by an agency.

Agencies may be required to give prior notice of an audit or survey unless the agency is responding to a complaint or immediate public health and safety concerns or when such prior notice would conflict with other state or federal law. Any state agency that provides notice of a hospital survey or audit must provide such notice to the hospital no less than four weeks prior to the date of the survey or audit.

Summary of Second Substitute Bill:

When the DOH inspects a hospital, the inspection must be conducted on an unannounced basis. The DOH is prohibited from issuing its final report regarding an unannounced inspection until:

1. the hospital is given at least two weeks to provide any information or documentation requested by the DOH during the inspection that was not available at the time of the request; and
2. at least one person from the DOH conducting the inspection meets personally with the chief administrator or executive officer of the hospital following the inspection, or the chief administrator or executive officer declines such a meeting.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of the session in which the bill is passed.

Staff Summary of Public Testimony (Health Care & Wellness):

(In support) This bill is part of the continuing effort to address the incidence of Methicillin-resistant Staphylococcus aureus (MRSA) infections in hospitals; it has been well worked and is acceptable to the hospital association. The substitute version narrows the scope so that it only impacts the DOH and hospitals. The bill removes the ridiculous requirement of providing a four-week notice prior to inspecting a hospital. We would like the hospitals to be on ready status at all times; this bill provides the appropriate conditions.

(Opposed) None.

Staff Summary of Public Testimony (Health & Human Services Appropriations):
